

Tradewind Books

PROJECT: Develop an easy to update and easy to navigate site to showcase the publisher's award-winning children's books

SOLUTION: build a custom site template with a template custom search

Booklist page: lists all books in alphabetical order

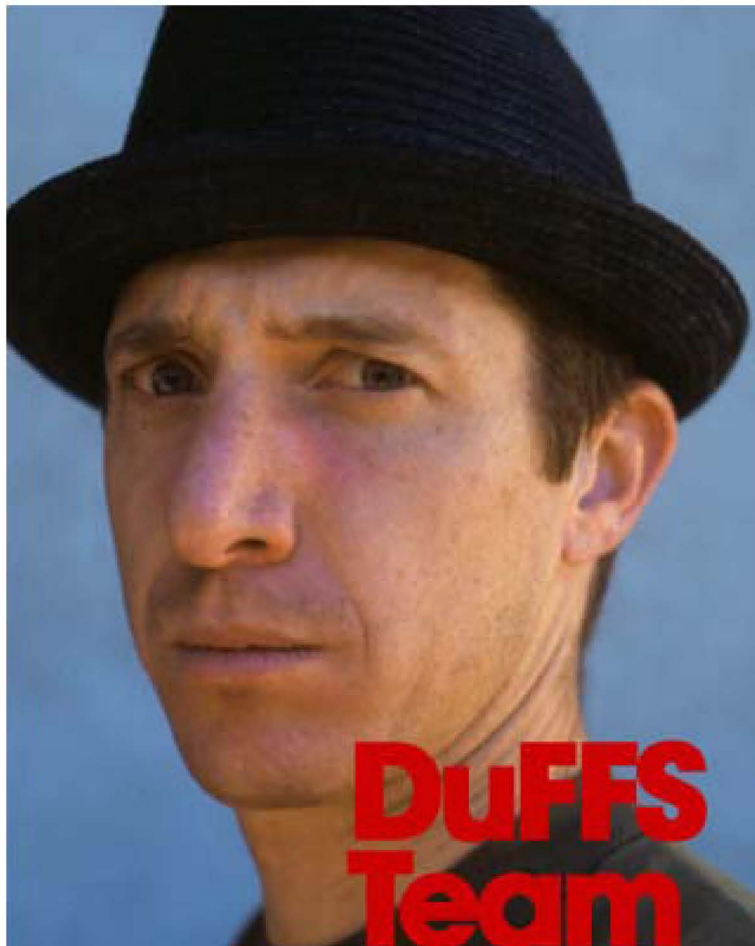

Detail Book page: users can look inside book images, read chapter excerpts, get pricing and rights usage about each book

Duffs

PROJECT: Redesign the website with a clean, modern feel

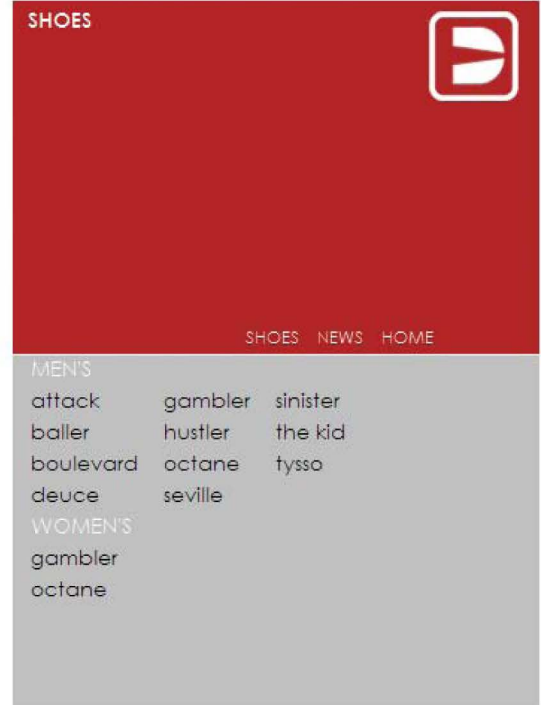

SOLUTION: Create a website palette based on strong, simple colours that highlights the skate team, and gives users ways to interact with the site

A Pattern Language

PROJECT: Create a visual language to showcase “A Pattern Language” a seminal book on architecture and planning

SOLUTION: Create and explore the visual possibilities of patterns through a colourful identity system for a web app

A Pattern Language
